AGP-6000 Series
Exit Station

Features:

- Standalone (AGP-6010 series) or on-line (AGP-6010, and AGP-6050 series).

- Uses common hardware components (RWPV-based), fewer inventoried parts, reduced service training.

- Field programmable operation utilizing handheld wireless remote control.

- Accommodates credit card size mag-stripe media.

- Access card and credit card acceptance (AGP-6050 series) model optional.

The AGP-6000 Series Exit Station is designed for multiple uses, typically at the unattended exits of a parking facility. The AGP-6010 Series Exit Station accepts the paid parking ticket, confirms the patron has paid and exited within the programmed lag-time, and vends the gate. The AGP-6050 Series adds mag-stripe card access functionality when used with an AGP-2250 Series Entry Station and on-line card access host software. The AGP-6050 Series adds credit card functionality for ticket in/credit card out, and credit card in/credit card out when used with an AGP-2050 series Entry Station and on-line credit card host software.

SPECIFICATIONS

AGP-6000 Exit Station

Electrical

- 120V AC, 60 HZ
- 220/240V AC, 50/60 Hz
