PARKING SOLUTIONS

HR-200
Hand Encoder For Store Validation

Features:

- Accommodates up to 127 stores
- Optional logo stamp for store identifications
- Lightweight, compact design
- No electrical power required

Amano Cincinnati's HR-200 Hand Encoder allows you to attract more customers by offering time, fee and/or percentage discounts for parking at your facility, and rate-switchover for valet and special events. The HR-200 is compact and easy to use. The store attendant simply inserts the Amano Cincinnati mag-stripe parking ticket into the encoder and presses down on the top. The store number is then encoded to give a predetermined discount at the parking facility, and the encoded ticket is automatically processed by the AGP-5200 Series Fee Computer, AGP-7000 and AGP-7800 Series Automatic Pay Stations, AGP-6000 Lagtime Reader, AGP-4300 and AGP-4400 Series ExpressParcs. A summary of discounts and store numbers recorded on the Fee Computer or Pay Station eliminates the need to physically count coupons and makes it easy to bill discounts back to each store participating in your validation program.

Additional lists and reports can be generated with a PC-based facility management software system.
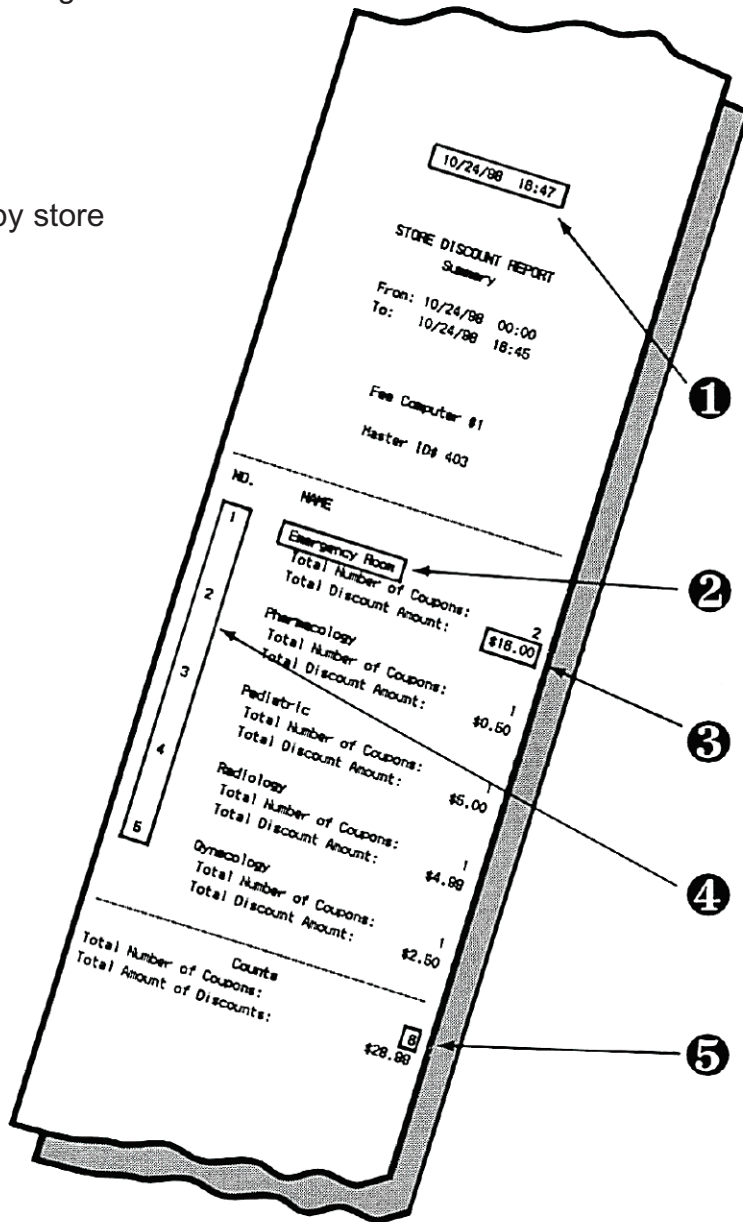

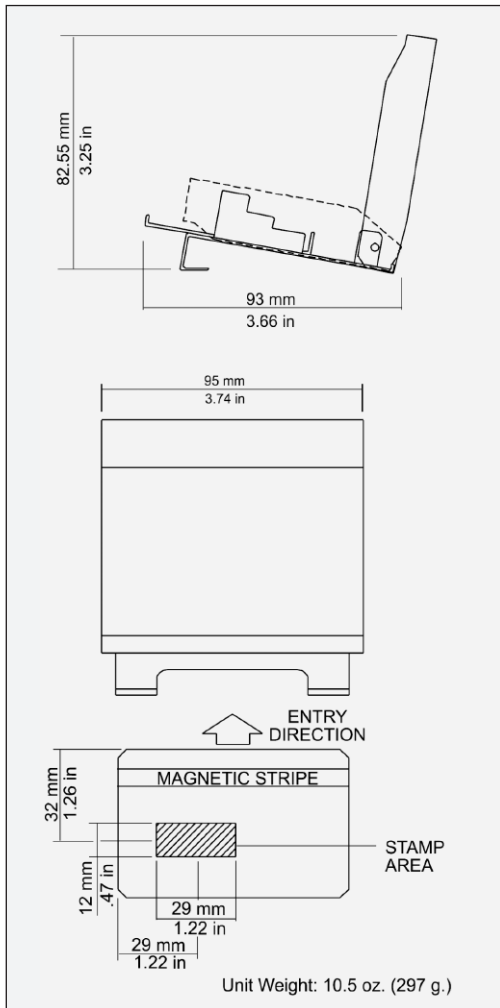

Accommodates up to 127 stores. Optional logo stamp for store identifications. Light weight, compact design No electrical power required.

Optional stand makes it easier to encode data
